Profile

I trained in neuroscience and then in clinical psychology, practised for twelve years in Curitiba with adults whose minds did not fit the categories I had been taught, and moved into the academic study of mystical and anomalous experience. Since 2019 the name New Kinds of Minds has covered my work on unusual minds: a video series on the psychology of artists, a book in progress, and now a participatory global atlas of the neurodiversity movement. I build interactive, immersive, and generative works about consciousness (Ontik, Quantum Sphere, Quantum I Ching, Encontro), founded Entrementes, a bilingual project for neurodivergent people, artists, and therapists in Brazil, and am completing a PhD in Religious Studies at Rice University on the phenomenology of mystical deification. Native Portuguese and Spanish, fluent English and French.

Education

2024 to present	PhD candidate, Religious Studies , Rice University, Houston. Dissertation on the phenomenology of mystical deification and cosmopsychism; advisor Jeffrey J. Kripal. Completing remotely from Brazil.
2021 to 2022	MA, Religious Studies , Pontifical Catholic University of São Paulo (PUC-SP). Thesis: <i>Ontological Shifts: Transdisciplinary Perspectives in the Study of Spiritual Enlightenment</i> .
2005 to 2010	BA, Psychology , Pontifical Catholic University of Paraná (PUC-PR), Curitiba.
2005 to 2006	Neuroscience research , Instituto de Biofísica Carlos Chagas Filho, Federal University of Rio de Janeiro (UFRJ).

Practice and research experience

2026	New Kinds of Minds: A Global Atlas of Neurodiversity . Concept, research, design, and development of a participatory open atlas; 102 verified initiatives in 47 countries at first public release. new-kinds-of-minds-hub.vercel.app
2026	Entrementes . Founder. Bilingual (Portuguese, English) project and community for neurodivergent people, artists, and therapists in Brazil; workshop series on AI as a cognitive tool for neurodivergent creators in design.
2011 to 2024	Clinical psychologist, private practice , Curitiba (CRP-08/18731). Adult psychotherapy, individual and group, with a transpersonal and consciousness-informed orientation; psychedelic integration; work with neurodivergent adults.
2024	Teaching assistant , Department of Religion, Rice University.
2011 to 2013	Teacher , A Grande Escola, Curitiba. Adult education courses in philosophy and psychology.
2013 to 2014	Public work : researcher for the Discovery Channel series <i>Fenômenos</i> ; talks and interviews on consciousness and memory (Pecha Kucha Curitiba, Rádio CBN, Gazeta do Povo, O Globo).

Interactive, immersive, and artistic works

2025 to 2026	Ontik. WebXR contemplative environments built with Three.js and custom GLSL shaders: a nine-minute experience and shorter pieces, for Quest and desktop. Sole author. ontik.app
2026	Quantum Sphere. Real-time raymarched sphere driven by a live hardware quantum random number stream, in the tradition of the PEAR Lab mind-matter experiments; logs each session for analysis. mindlamp.monkadelic.me
2026	Quantum I Ching. Divination instrument casting hexagrams from photon-detection randomness, with a language-model reader and a Portuguese edition. iching.monkadelic.me
2026	Encontro. WebXR ceremony of encounter in which the visitor becomes a field of light responding to hand movement; multi-user phase in development. danrezi-gif.github.io/encontro
2026	Mu. A minimal voice-enabled AI conversation with a Zen aesthetic.
2023	Theosis Project, <i>Music for Alien Voyages</i>. Eight-track album of ambient, drone, and experimental electronics.
ongoing	Painting. Abstract and figurative work in oil, acrylic, and watercolor on consciousness and spiritual emergence; works listed on Saatchi Art (<i>Message from the Depths</i> , <i>Resurrection</i> , <i>Dance of Light</i> , the <i>Spirits</i> series).
2019 to present	New Kinds of Minds (series and book project). Writing and video work on the psychology of artists, high sensitivity, neurodiversity, and spontaneous altered states.

Grants and awards

2021	CAPES research scholarship , Religious Studies, PUC-SP.
2020	John Templeton Foundation grant , Cognitive Psychology of Religion in Brazil program, for <i>Becoming Headless: A Novel Experimental Task for the Study of Mystical Attributions within the Embodied Cognition Paradigm</i> .
